

Wheels Logistics Forges a New Link in Customers' Supply Chains

Mississauga, ON, September 4, 2008 – Wheels Logistics proudly announces the opening of its new warehouse facility featuring expanded services that provide a new link in their customers' supply chains. Located within minutes of Pearson International Airport in Mississauga, Ontario, the 70,000 square foot warehouse provides customers from both Canada and the United States with a central facility capable of reaching 64% of Canada's population with next-day service.

The new warehouse offers existing Wheel's Logistics customers with expanded services beyond traditional road delivery. Warehousing, kitting, order picking, fulfillment and distribution services will use advanced technology solutions to leverage operational efficiencies. Both the strategic location of the warehouse and the service capabilities of Wheels Logistics give distributors operating out of the U.S. an excellent, cost-effective opportunity to tap into the Canadian market without the associated overhead costs and logistics concerns.

"Wheels Logistics is committed to providing award winning logistics solutions that will help our customers succeed in a competitive global environment. Our new facility has been in the planning stages for a year and every detail has been assessed to ensure our ability to help our customers' optimize their supply chains", says Jim Davidson, Wheels Logistics President. "We are excited about the growth opportunities that this will bring to our organization and to our customers as we continue to expand our supply chain service offering", he adds.

About Wheels Logistics

Wheels Logistics is a division of Wheels Group, winner of the Ryder Carrier Quality Award and one of Canada's 50 Best Managed Companies. Wheels Group provides innovative supply chain products, services and information technologies that deliver leading-edge, value-added business solutions. The company serves an international client base through four divisions: Wheels Group, which provides the company's shared services and strategic vision; Wheels Clipper, a third-party logistics provider with 90 years of combined experience; Wheels Logistics, specializing in contracted services that support just-in-time delivery; and Wheels Global, which provides a full range of freight forwarding services. Through these offerings the company applies a forward thinking approach to supply chain management that optimizes business results and creates long-term value for customers.
